Cues Launches Re-designed Website - www.cuesinc.com

November 29, 2005

Orlando, Florida USA - CUES announces the launch of the cuesinc.com redesigned website. User-friendly menus and downloadable literature/user manuals are all part of the new features built into the site. In addition to accessing detailed information on the company and its services, other features include more information to keep you informed, including news/upcoming events pages, information on all new CUES products as they're released in the industry, a new design to showcase all of CUES products and services, and more. Future enhancements include complete site optimization for better web exposure.

About CUES - CUES is the world's largest and oldest manufacturer of pipeline TV inspection and rehabilitation equipment. With headquarters and a new manufacturing facility located in Orlando, FL, CUES employs more than 160 full time employees to serve and support its customers' needs. Additional facilities with stocking warehouses and service personnel are located in California, Texas, Maastricht, The Netherlands, and Toronto, Canada. For more information, visit www.cuesinc.com
