

LAMP II TROUBLESHOOTING

This is a one day class (cost \$200.00 per student)

Prerequisite: TV Operator Troubleshooting Class.

This is an instructional class using power points and hands on training.

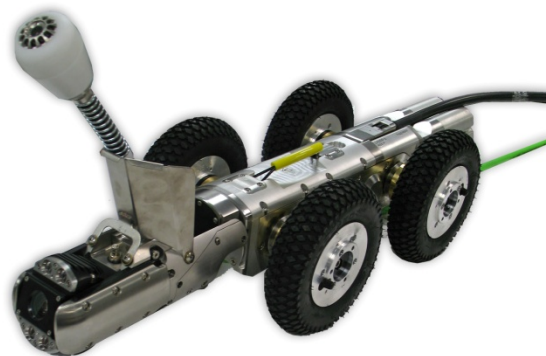

Topics covered in this session:

- Basic maintenance and care of Lamp II launcher.
- Lamp II push block assembly.
- Brown cable end terminations.
- Adding Lamp II into K2 system.
- Lamp II LED light head build and troubleshooting.
- Troubleshooting Lamp II on TV trucks.

This session is based on how Lamp II works with the K2 system.

** Note: All students are responsible for their own accommodations and meals.**

Class is from 8am until 5pm with one hour for lunch.
