

TV Operator Troubleshooting - K2

This is a two day base class. (cost: \$200.00 per day per student. \$400.00 total)

This is an instructional class that uses power points and hands on training.

Prerequisite: None

Topics covered in this session:

- Basic electronics and electricity.
- Basic soldering skills.
- Use of digital multi meters and Meg Ohm meters.
- Cable end terminations.
- Troubleshooting cable problems.
- K2 operations and diagnostics.
- K2 system builds and troubleshooting.
- OZ light head build and troubleshooting.
- TV truck troubleshooting.
- Camera and transporter maintenance.

During this class we will cover these topics and problems that arise during normal operation and how to avoid and correct issues on a daily basis.

**** Note: All students are responsible for their own accommodations and meals.****

Class time is from 8am to 5pm both days with one hour for lunch.
