

MANHOLE DEPLOYMENT SYSTEMS

Crane-Mast Deployment

CUES MAST SYSTEMS

- The truck-mounted mast can position the camera 50ft below the surface of the road and is designed to achieve optimum picture stability throughout the optical zoom range of the camera.
- The camera unit can be electronically raised and lowered.
- Prevents the need for an operator to enter the manhole to position and/or reposition the camera height.
- Perform manhole & mainline inspections and gauge the manhole depth without the need for a camera transporter!
- Can be installed on existing TV inspection systems without the need for modifications to other existing equipment already installed on the unit.
