CUES GROUT REHABILITATION VEHICLES

Stop leaks in sewers, manholes, tanks, vaults, tunnels, and more, with CUES portable and truck-mounted chemical grout rehabilitation systems. **Chemical grouting** is the least expensive rehabilitation method available and the best, long-term defense against infiltration of groundwater into structurally sound sewer systems. CUES truck-mounted grout rehabilitation systems are available for mainline joint sealing/lateral sealing and can be equipped with the latest CCTV equipment for television inspection. All systems can be configured to run Urethane, Acrylimide and Acrylate grouts. Grout packers are available for mainline and lateral sealing.
