See the new CCTV/SPiDER Truck

No Dig Show

March 17-21, 2019 | Chicago, Illinois

FEATURES:

- Inspect manholes and CCTV pipelines with the same two person crew
- Does not hamper CCTV production
- Operates SPiDER, ZoomX II, and DUC Manhole Cameras
- 25 ft carbon fiber telescopic mast with quiet winch
- No computer or cable configuration required to alternate between manhole & pipeline inspection
- Both SPiDER and CCTV systems are always on and operating independently of one another
- Under chassis storage for SPiDER tripod for offroad/backyard manhole inspections
- Operates all CUES CCTV transporters, camera heads, and wheel sets
- LAMP II Lateral Inspection System add-on available
- Hydraulic manhole lifter add-on available

Mark your calendars and make plans to visit CUES at the [2019 NASTT's NoDig Show](#) in Chicago on March 17th - 19th, 2019. NASTT's No-Dig Show is the largest trenchless technology conference in North America, where professionals attend to learn new techniques that will save money and improve infrastructure. CUES will have exciting new innovations for the water/wastewater industry, as well as experts and top executives on hand to answer any questions you may have. We hope to see you at the show! To learn more about CUES products or for a free demo, [contact your CUES Regional Sales Manager](#).

ENROLL TODAY - TIME IS RUNNING OUT!

Avanti International, CUES, Inc., and Logiball, Inc., are partnering together for its annual 2-Day Operator Grout Training in Tavares, Florida, on March 27-28, 2019. Learn hands-on skills for grouting mains, laterals and manholes in wastewater and storm water structures! [Click here](#) to register now or contact Mark French, CUES Business Development Manager, at CELL: 407-750-0426 or EMAIL: mfrench@cuesinc.com

DUC DIGITAL SIDE-SCANNING CAMERA

The **CUES Digital Universal Camera (DUC)** is a high resolution digital CCTV side-scanning camera designed for rapid and detailed condition assessment of your wastewater or stormwater system. When used in conjunction with our GraniteNet software, customers double their daily footage, on average, while significantly reducing the overall cost of an inspection. The system can be deployed from both portable and vehicle-mounted systems, providing a versatile solution for CCTV pipeline inspection needs. [Contact CUES today](#) for a free demo!

TV & SONAR SYSTEM

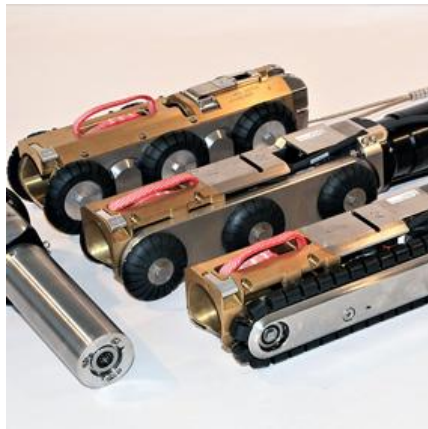

The **CUES CATVS system** is a TV & sonar sewer and storm inspection system that transmits both video and sonar on a single multi-conductor cable. This system is designed to work with the OZII camera and Marine Electronics Sonar using a standard CUES gold cable. It can be adapted to multiple CUES platforms including: TV/Sonar Float, Sonar-only Float, Steerable and Non-steerable Pipe Ranger transporters, and the Mudmaster transporter. CATVS is ideal for partially and fully-charged pipelines, including difficult-to-inspect siphons. [Contact CUES today](#) for a free demo!

Thanks for Visiting Us at the 2019 WWETT Show

Thanks to all of the visitors that stopped by the CUES booth at the 2019 WWETT show. We were impressed with the number of visitors and the great interest in our products. The exhibition gave us the opportunity to showcase the latest pipeline inspection technologies for the water,

wastewater, and stormwater industries. If you have any questions or feedback following the show, please email us at salesinfo@cuesinc.com. Also, feel free to [browse our website](#) to learn more about our products or call us and we'd be happy to assist you. We look forward to meeting you at future events!

QUALITY USED INVENTORY FOR SALE

CUES offers a great selection of quality used equipment for sale, everything from cameras, transporters, and more! [Click here](#) to view the current list of equipment. The items are sold on a first come/first serve basis and include a 3-month warranty. Please be advised that the inventory is constantly changing due to the acquisition of additional equipment on any given day. To verify availability and to take advantage of our inventory specials, contact the [CUES Parts Department](#) today!
